

Model 9195U

Model 9260U

CAMSO

Cobra WT

High-performance belting to handle heavier loads

Wide-track design for performance with traction to spare in deep, soft or loose snow. Ideal for utility snowmobiles used off-trail with high-performance belting to handle heavier loads without track stretching.

CAMSO

Cobra SWT

Durable, high-performance design for wide sleds

The same durable, high-performance design as the Cobra WT, with even wider track for 24" wide applications. For utility users with wide sleds who seek quality.

- Extra tall 1.5" and 1.75" lugs provide optimal traction (1.8" lugs for Cobra WT)
- Cupped lug design ideal in soft, loose snow and for off-trail backcountry exploration
- Lightweight for greater efficiency and improved fuel economy
