

Model 9968H144  
Enhanced stud easy tracks

Model 9156H

## CAMSO RipSaw

Excellent durability and traction

One of the best trail tracks ever offered and still a bestseller today, with rigid, hard-wearing lugs for mile after mile of dependable use. A wide range of sizes fits many different snowmobiles. This is the benchmark model for high-performance trail tracks, with excellent durability and traction on groomed or hard-pack snow.

- Rigid lugs provide superior handling, acceleration, and braking on groomed trails
- Narrow lug base for reduced rolling resistance and maximum top speed
- Angled profiles for aggressive forward and lateral bite

## CAMSO RipSaw II

All-around performer in all types of snow

Designed for all-around trail performance – excellent traction on both hard-pack and loose, less-compacted snow with ride comfort features.

- Tapered outside lug edges for less side bite when cornering
- Sharp angled lugs for excellent bite on hard-pack snow
- Cupped center and full outer lugs for traction on loose, less-compacted snow
- Lug design generates less noise for improved rider comfort on hard-packed groomed trails
