

About Butter Wet Wax

You asked for a Better Butter Wet Wax and Chemical Guys has delivered. Chemical Guys Butter Wet Wax is formulated to deliver an unmatched surface shine and deep wet look. Butter Wet Wax goes on easier, shines brighter and lasts longer than previous generations. This improved blend of natural Carnauba, polymers, and resins leaves your car shining as if it were just washed! Chemical Guys Butter Wet Wax enables you to attain the deep gloss of a paste wax in an easy on, easy off, long lasting blend. Butter Wet Wax is now even easier to use giving that amazing shine only our ultra refined, 100% carnauba based wax can provide. We named this wax after its trademark characteristic; it simply melts into any paintwork like butter. Chemical Guys Butter Wet Wax is simply stunning. Professionals and enthusiasts alike all around the world choose Chemical Guys Butter Wet Wax for its easy-to-use capabilities, extremely durable protection, and show winning shine that will look astonishing on most non-textured surfaces including, painted wheels, chrome bumpers, glasswork/ windshields and stainless steel exhaust tips. Chemical Guys uses our all new signature, ultra-refined, carnauba formula creating a wax that utilizes the natural cleaning powers of carnauba to gently cleanse the paint, exposing the natural beauty of your vehicle's color, while also providing a protective coating that will fight out the harsh effects of the elements. The smooth, protective layer is 100% natural to fight off water spots, bird droppings and road tar. The new improved formula of Butter Wet Wax is even more guarded against the sun's harmful UVA and UVB rays. Your vehicle needs the best protection to fight off the harmful effects of driving. When you desire a deep wet shine with amazing protection, the easy on, easy off Butter Wet Wax will bring your vehicle's paintwork to life.

Signature 100% Carnauba Based Formula

Carnauba, also called Brazil wax and palm wax, is a wax acquired from the leaves of the palm, *Copernicia prunifera*, a plant native to and grown in Brazil. Carnauba Cream is considered by many to be the, "queen of waxes" and usually comes in the form of hard yellow-brown flakes. Chemical Guys refines the flakes and blends them with a fine assortment of lubricating agents and oil to nurture and maintain the highest level of shine on your vehicle. Our smooth, liquid formula melts deep into the paint to give you the deepest, wettest look imaginable. This natural protective coating allows water to bead off the paintwork, protecting against harmful water spots that could permanently damage your vehicle's finish. Bird droppings can easily be removed once the natural carnauba coating is applied to your vehicle. You can always smile knowing your vehicle is protected in any situation with a protective layer that is safe for the environment.

Easy On, Easy Off Application

Butter Wet Wax is the world's easiest wax to use and now it's even better with an all new improved formula. Butter Wet Wax can be applied by hand or machine and can also be applied in direct sunlight. Chemical Guys Butter Wet Wax works brilliantly with all types of paint (Metallic, solid color, Ceramic & Clear coated). Since it's easy on easy off, it shortens work time and produces a streak/resin free shine in a matter of minutes! Butter Wet Wax can even be applied while the paintwork is wet directly after a wash. These amazing easy-to-use characteristics make waxing your car fun again! Chemical Guys Butter Wet Wax will make you realize how quickly your car can have that fresh-waxed look that stands out from the crowd. Butter Wet Wax is so easy to use, it turns waxing a car into a quick 5-minute job.

Brilliant Deep Wet Paintwork

Chemical Guys Butter Wet Wax simply melts into any color paintwork revealing a finish so deep you will want to dive right in with the astonishing color. Butter Wet Wax reveals the amazing natural beauty of your vehicle's paintwork. Blue paintwork appears deep as the ocean. Red appears vibrant like fire, and white shines pure like fresh snow when protected with a coat of Butter Wet Wax. Chemical Guys Butter Wet Wax works amazing on solid and metallic colored paintwork as well as most non-textured surfaces to make your paint shine with the vibrant magic of natural carnauba. Stand out from the crowd, and let your car be star of the show. Your vehicle says so much about your personality, so tell the world you're a shining star in a fresh-waxed car.

Natural Cleaning Power Of Refined Carnauba

Chemical Guys new and improved signature carnauba formula utilizes advanced refining techniques to bring out the natural cleaning properties of the carnauba wax. The ultra refining process allows the natural carnauba cleaning powers to remove light scuffs, bird droppings, road tar, tree sap, and even overspray. Chemical Guys Butter Wet Wax contains no harsh chemicals or solvents because it only contains 100% carnauba based wax making it safe to use on any paintwork or non-textured surfaces. The naturally durable characteristic of carnauba wax provides astonishing protection from UV solar rays. The new and improved formula is even more powerful at fighting the sun's harmful UVA & UVB rays. The sun is one of the most harmful enemies of your vehicle's paintwork causing fading, cracking, and clear coat failure. With Chemical Guys Butter Wet Wax you are highly protected while looking simply stunning.

Other Sizes Available

Butter Wet Wax is available in [4 ounce](#), [16 ounce](#), and [1 gallon](#) sizes.

How To Use:

1. Apply a thin coat working small 1-2 foot area at a time using quality cotton or microfiber cloth or applicator pad.
2. On top panels, use front-to-back hand motions. On side panels, use up-and-down hand motions. This helps improve reflectivity. Heavy rubbing is not necessary.
3. Allow several minutes to haze or wipe off immediately using a clean, quality cotton or micro fiber towel to buff off and reveal the hidden beauty, shine and gloss of your paint.
