* XL250 DEGREE 91-94 and NX250 AX-1: An aftermarket sprockets without Rubber damper is required to use 520VX2.

*The above chart is our suggested guideline for model applications. Chain link lengths may vary depending on your country's model.

*If your stock motorcycle came with an "ENDLESS" chain, a replacement chain must be installed with a rivet type connecting link.

*The above chart is our suggested guideline for model applications. Chain link lengths may vary depending on your country's model.

*If your stock motorcycle came with an "ENDLESS" chain, a replacement chain must be installed with a rivet type connecting link.

*The above displacement chart is for reference only; displacement limitations may vary from model to model.

Displacement guidelines are **NOT** applicable for converted (modified) motorcycles, chain conversions from Original Equipment Manufacturer's required size chain, or racing motorcycles.

If your stock motorcycle came with an "endless" chain, a replacement chain must be installed with a rivet type connecting link.
