# Latest Innovations

## 80" Standard Straight Blade

Move massive amounts of snow with the widest Eagle Plow on the market!

- Cover the wheel track of the largest machines with this rugged, 80-inch blade
- Manufactured from 11-gauge, US Prime steel to handle colossal amounts of snow
- Steel gussets are strategically placed to increase blade support & strength

## 72" Slanted Country Blade

Use the largest Eagle Country blade for the best snow rolling experience!

- This burly, slanted blade is manufactured with US Prime, 11-gauge steel
- 72 inches of pure strength for plowing the longest drives
- Staggered steel gussets boost blade endurance for season after season use

# Latest Innovations

## 72" & 80" Redesigned V-Blades

New 72" & 80" bow tie blade design has raised height & a blade curvature sure to move snow with ease!

- 72" & 80" of sleek steel to effortlessly cut through snow in various positions
- These blades offer the ability to start manual then upgrade to a hydraulic system (Part #2964)
- Larger widths & higher blade heights tapering up from the center of the blade increase plowing capacity
- Now powder-coated in Jet Black or Titanium Yellow for the ultimate high-gloss finish

Order the 2960 Series Manual or Hydraulic V-Plows with part numbers 2806 (UTV push tube for tires) or 2807 (UTV push tube for tracks) with a specific machine mount to complete your ultimate plowing package.

## Completely Hydraulic V-Blades

Cut snow removal project times significantly with the completely hydraulic Eagle V-Plows!

- Smoothly control your snow plow with the Smart Button Remote Control from your cab
- V, scoop, angle or straighten your blade without leaving your machine with widths in 72" & 80"
- Redesigned blade curve, height & positioning make for one noteworthy snow mover

# Eagle Snow Plows

Eagle Plows date back to the 3-wheeler era, they have withstood the test of time & we continue to innovate the industry's first plows today. Blades continue to be engineered & manufactured in Minnesota, USA, by the snow experts from US Prime steel for maximum strength & durability. Starting with 11-gauge steel, then precision laser cut, rolled, & welded for just the right performance & durability. All plow systems are coated with a high-gloss, powder-coat finish in black, red or yellow depending on blade style.

Eagle Plow Systems have the ability to work on most makes/models of ATVs & UTVs/SxSs. The latest designs of push tubes & plows interchange with the classic designs, making upgrading to a new machine economical & effortless. Each blade easily engages & disengages from the plow system in between uses or for storage. (Photos of this can be found on page 11 & plowing accessories & replacement parts can be found on page 20).

## Standard Straight Blades

- **NOW OFFERING:** 80" blade for the ultimate plow coverage
- Rugged design allows for easy snow rolling
- Tough, heavy duty wear bar is reversible & replaceable
- Manually adjusts to 5 blade positions or is compatible with the hydraulic Eagle Motion Pac (Page 21)
- 66", 72" & 80" blades come with rubber flap & plow markers
- Use the adjustable skid shoes with spacers to protect the blade & surface

## Slanted Country Blades

- **NOW OFFERING:** 72" blade for non-stop snow rolling
- Slanted design is best used for high capacity plowing
- Tough, heavy duty wear bar is reversible & replaceable
- Manually adjusts to 5 blade positions or is compatible with the hydraulic Eagle Motion Pac (Page 21)
- All Country Blades come with a rubber flap & plow markers
- Adjustable skid shoes with spacers allow for smooth surface contact

# Eagle Snow Plows

## Eagle V Force V-Blade

- **NOW OFFERING:** 80" sizes & hydraulic V-blades for UTVs
- Adjustable blade panels allow for variable movements
- Cut snow straight, angled to each side, scooped forward or V position back
- All V-Blades come with rubber flaps
- Comes with adjustable skid shoes & spacers
- Cutting edge is removable & replaceable

# Original Eagle Plow System

The Original Eagle Plow System has years of 'in-the-field' engineering & continuous innovation with modern machine mounts. Once each mount, push tube & swivel is manufactured, it is then powder-coated with a Jet-Black finish that will withstand the harsh, winter elements. The Original Eagle Plow system mounts to the belly of your ATV & offers an easy install. A winch or hand lift kit are needed to lift the blade. The system is composed of a model specific mount, universal push tube mount, push tube specific for tires or tracks with swivel & has the ability to pair with any Eagle Plow Blade. (Plow replacement parts & accessories can be found on page 20).

## Model Specific ATV Mid-Mount Plate:

- Stays on year-round & acts as a steel, skid plate
- Won't affect oil changing or ground clearance
- Made from 11-gauge steel & attaches with provided hardware
- See pages 13-19 for your specific ATV mid-mount

## Universal Push Tube Mount Plate:

- Offers pins for instant engaging & disengaging of plow system with the Quick-Latch Brackets
- Removable after the season & replaceable (Part #0200)
- Made from 10-gauge steel & attaches with provided grade 5 carriage bolts

## Original Eagle Push Tube with Swivel:

- Manufactured from 1-1/2" high strength square tubing (Part #2906)
- Attaches in seconds with the Quick-Latch brackets & locks in place
- V-shaped design & cross bars for increased stability
- Swivel adjust to 5 positions offering 30° of rotation to each side
- Swivel rotates on a heavy duty 5/8" bolt mounted to 1/4" solid steel

## Eagle Blade:

- Blade mounts to the push tube swivel with 1/2" bolts
- Adjustable, bolt-on blade stops offer 4 blade pitch positions
- Comes with trip springs & eye bolts for added blade plowing protection

# Gen II Plow System

The Gen. II Plow System is designed for those who want quick connect/disconnect of the plow system. This system mounts to the front of your ATV frame with a model specific mount which connects machine to push tube & blade. Altogether, this system has three major components; the Gen. II front mount, Gen. II push tubes with swivel & any Eagle Plow Blade. The blade in this system can only be lifted using a winch.

The Gen. II Plow System is manufactured in Minnesota, USA, & each piece of the system is powder-coated in Jet Black for a long-lasting finish. Plow system replacement parts & accessories can be found on page 20.

## Model Specific ATV Front Mount:

- Quick-Latch pins offer instant engaging & disengaging
- See pages 13-19 for your specific ATV front mount
- Some mounts recommended to be removed in off-season to maintain ground clearance

## Gen. II Eagle Push Tubes with Swivel:

- 1-1/2" high strength square tubing
- Attaches in seconds with the Quick-Latch brackets
- Swivel adjusts to 5 positions offering 30° of rotation to each side
- Swivel rotates on a heavy duty 5/8" bolt mounted to 1/4" solid steel
- See pages 11-12 for specific push tube information

## Eagle Blade:

- Blade attaches to the Swivel System with 1/2" bolts
- Adjustable, bolt-on blade stops offer 4 blade pitch positions
- Includes industrial trip springs & eye bolts for added blade protection
- See pages 6-7 for specific blade information

# Eagle UTV Plow System

Put your UTV to work this winter! When you want to move snow with a front mount install, the Eagle UTV Plow System is for you. Front mount connection points are easily accessible to quickly engage & disengage the plow assembly. This system is composed of a model specific mount, UTV push tube with swivel & any Eagle Plow Blade.

Blade lifting can only be done with a winch & blade turning can be done manually or with the Eagle Motion Pac found on page 21. Plow system replacement parts & accessories can be found on page 20.

## Model Specific UTV Front Mount:

- Manufactured from 1/4" steel & attaches with grade 5 hardware to the frame
- Clevis pins are included for attaching push tubes
- See pages 13-19 for your specific UTV Front mount
- Some mounts may recommend off-season removal to maintain ground clearance

## UTV Push Tubes with Swivel:

- 1 1/2" high strength formed tubing
- Standard Push Tube for attaching to UTVs with tires (Part#2805)
- Extended Push Tube available for attaching to UTVs with tracks (Part#2808)
- Eagle Motion Pac & Push Tubes allow for hydraulically positioning the blade (see page 21)
- Multiple cross members & V-shaped design for added hardness to the entire system
- Manually adjust to 5 positions offering 30° of rotation to each side
- Rotates on a heavy duty 5/8" bolt mounted to 1/4" solid steel

## Eagle Blade:

- Blade attaches to the Swivel System with 1/2" bolts
- Adjustable, bolt-on blade stops offer 4 blade pitch positions
- Heavy duty trip springs & eye bolts protect your blade when plowing

# Mount to Push Tube Attachments

## Original Eagle ATV Mid-Mount

(Part #2906)

## Eagle Gen. II ATV Front Mount

(Part #3906/3908)

## Eagle UTV Front Mount

(Part #2805/2808)

# Order Guides

## Original Eagle Plow System

With years of 'in-the-field' engineering, the Original Eagle Mid-Mount Plow System is ready to plow through snow, no matter how much stands in your way. The mount & push tubes mount to the belly of your ATV. Use any Eagle Plow Blade with this system (except the 2960 Series V-Plow).

ORDER GUIDE

- Review the Model Specific Mount Guide (Pages 13-19) ..... Part # \_\_\_\_\_  
\*\*Note: Universal Push Tube Mount is included with Model Specific Mounts
- Order the Original Eagle Push Tube ..... Part # 2906
- Select your Eagle Plow Blade (Pages 6-7) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Hand Lift Kit (Page 22) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Winch (Pages 24-25) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Winch Mount (Pages 13-19) ..... Part # \_\_\_\_\_

## Eagle Gen. II Plow System

Easily mount to the front of your ATV with the Eagle Gen. II Front Mount Plow System. Each mount is made specifically for your machine with push tubes to match either tires or tracks. This system works with any Eagle Plow Blade (except the 2960 Series V-Plow).

ORDER GUIDE

- Review the Model Specific Mount Guide (Pages 13-19) ..... Part # \_\_\_\_\_
- Order the proper Gen. II Push Tube ..... Part # \_\_\_\_\_  
Standard Push Tube for Tires: Part # 3906  
Extended Push Tube for Tracks: Part # 3908
- Select your Eagle Plow Blade (Pages 6-7) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Winch (Pages 24-25) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Winch Mount (Pages 13-19) ..... Part # \_\_\_\_\_

## Eagle UTV Plow System

Smash through snow with your UTV & the Eagle UTV Front Mount Plow System. Each mount is made specifically for your make/model & mounts to the front of your machine. Mount & push tubes are made to work with any Eagle Plow Blade (except the 2960 Series V-Plow).

ORDER GUIDE

- Review the Model Specific Mount Guide (Pages 13-19) ..... Part # \_\_\_\_\_
- Order the proper Eagle UTV Push Tube ..... Part # \_\_\_\_\_  
Standard Push Tube for Tires: Part # 2805  
Extended Push Tube for Tracks: Part # 2808
- Select your Eagle Plow Blade (Pages 6-7) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Winch (Pages 24-25) ..... Part # \_\_\_\_\_
- Optional Lifting Accessory: Winch Mount (Pages 13-19) ..... Part # \_\_\_\_\_

# Eagle Motion Pac

Hydraulically control your plow position from the seat of your UTV with the Eagle Motion Pac by KYB. Powered by a single, 3/4" chrome hydraulic shaft, Eagle Plow Blades can move snow exactly where you want it!

These kits are manufactured & assembled for front mount UTV plow systems. Different lengths are available for machines with tires & tracks. Systems are sold as complete units & include the required push tube, wiring harness, hydraulic cylinder & swivel system. Some assembly required.

PART #	DESCRIPTION
2939U	Eagle Motion Pac for UTVs with tires
2959U	Eagle Motion Pac for UTVs with tracks
2939-15	Replacement Motion Pac
2939U-WH	Replacement wire harness

# Eagle Hand Lift Kit

## Eagle Hand Lift Kit

Working with the Original Eagle Plow System, a Hand Lift Kit can be purchased to manually raise & lower your mid-mount ATV plow system. The kit is manufactured with a 3/4" handle tube & 3/8" lifting link that connects to the plow system's push tube to raise & lower the blade. Lift height is variable from machine to machine but has an easy-to-set float position with the bumper strap. The Eagle Hand Lift Kit is easy to install on any ATV & is fully adjustable; the height of the handle can change for added leverage when lifting the blade.

PART #	DESCRIPTION
2900	Hand Lift for Eagle Original ATV Plow System
2900-22	Linkage Rod with Ends
2909	Bracket Kit
HDW2320	Bushing Kit

2900-22

# Talon Tire Chains

Get more bite with the ladder-style, hardened V-bar Talon Tire Chains. Deep links won't fall between tire lugs when running on ice, slush, or hard packed snow. Five size options available to fit the majority of factory or specialty ATV/UTV tires. Chains have four links between cross sections to increase your grip in harsh winter conditions.

Talon Tire Chains are sold in rear pairs & come with a plastic case for year-round storage. They are easy to install; start by lying flat, rolling on & cinching up. Chains are zinc plated for corrosion resistance.

PART #	CLASS	CHAIN SIZE	TIRE SIZE(S)
3301	A	52" L x 14" W	22x8x11, 22x10x9, 22x10x10, 22x11x8, 22x11x9, 22x11x10, 25x11x8
3302	B	52" L x 14.5" W	24x9x11, 24x10x11, 24x11x10, 25x8x12
3303	C	56" L x 16" W	24x13x9, 25x10x12, 25x11x10, 25x12x9, 25x12x10, 25x13x9, 25x13.5x12
3304	C+	61" L x 16" W	Oversized 26" tires
3305	D	66" L x 16" W	Oversized 27" tires
Part # HDW1888 – Replacement Tire Chains Case			

# Eagle Winch

Get in there, get dirty, get stuck & get the Eagle Winch to get you out of any tough situation. Each winch is water-resistant with a sealed construction to keep the harshest elements out. Eagle Winches are a durable utility tool for use by off-road enthusiasts around the globe on the trails, in the fields or back in the woods.

Winches are manufactured with a full metal composition & a hardened triple planetary gear system that transmits torque to a permanent magnet motor. This system also offers superior controls with the handlebar rocker switch or optional wireless remote kit but can also free spool out.

Every Eagle Winch is designed for easy mounting with either a 2- or 4-hole mounting design. ATV/UTV mounts made from 7-gauge, American steel are sold separately & can be found in the Mount Guides on pages 13-19.

## Wireless Remote Kit - #1915

Stand back & watch your Eagle Winch work with the Eagle Winch Wireless Remote Kit. Kit includes a hand-held remote transmitter with a long-life battery & a receiver that attaches to the winch system in minutes with a 4-prong female connector. Remote can reach up to 50' range with an extendable antenna & indicator lights to confirm winch connection.

Eagle Winch Remote Kit can be used on ATVs & UTVs with front or rear mounted winches using a 12V or 24V electrical system but is not recommend for use with winches that are used for cranes, construction or industrial purposes.

## Eagle Winch Replacement Parts

Eagle Winches are made to work hard & withstand the harsh elements. Although, warranty information can be found on the back cover.

### REPLACEMENT PARTS

1900	Heavy Duty Fairlead
1910	Snatch Block & Hook
1911	Switch & Replacement Solenoid Kit
1912	42' cable rated for 2,500 lbs. 3/16" diameter cable with G43 hook
1913	Rocker Switch
1914	Replacement Solenoid
1916	Replacement Cable Hook
1917	2,500 lb. 3/16" Rope Only
1918	Rubber Cable Stop
1919	Aluminum Hawse Only with Hardware
1921	2,500 lb. 3/16" Rope & Aluminum Hawse
1915	Wireless Remote Kit
1922	Remote & Rocker Switch Control Splitter

# Racks & Carriers

## Front Racks

### Now for both composite & tubular!

Add rugged front hauling space without impairing driver's vision with these heavy-duty front racks.  $\frac{3}{4}$ " square, 16-gauge American steel tubes supporting a 16-gauge, laser cut mesh basket strong enough to take a beating! Racks are powder-coated with a black rubberized finish. Hardware is universal for easy mounting for both tubular & composite racks.

PART#	DESCRIPTION	DIMENSIONS
4880	Universal Front Rack	37.25" W x 12.75" L x 6" D
4881	Slotted Front Rack	37.25" W x 12.75" L x 6" D

## Rear Racks

### Now for both composite & tubular!

Increase ATV hauling capacity with any of the rear racks. Manufactured with  $\frac{3}{4}$ " square, 16-gauge wall steel tube for ultimate strength. Laser cut & fabricated steel basket is powder-coated with a black rubberized finish for years of reliable durability. Universal mounting hardware & instructions included.

PART#	DESCRIPTION	DIMENSIONS
4879	Universal Rear Rack	40.5" W x 22.75" L x 6" D
4883	Rear Drop Rack	40.75" W x 26.5" L x 12.75" D

## Gas Can Carriers

Transport fuel safely & efficiently with these steel framed, gas can carriers. With a simple design, it will bolt-on to most ATVs with a metal front or rear rack. No drilling required & all hardware required is included along with instructions. Inside dimensions will fit a variety of 1 or 2 1/2 gallon fuel cans.

- Bolt-on, no cutting mounting
- 5/8" round 16-gauge wall steel tube
- Formed 11-gauge steel bracket & base
- Powder-coated in Jet Black
- Gas can not included

#4235

#4234

PART #	DESCRIPTION (INSIDE DIMENSIONS)
4234	1 Gal. Gas Can Carrier (7" W x 9" L x 5 3/4" H)
4235	2 1/2 Gal. Gas Can Carrier (8 3/4" W x 12 5/8" L x 5" H)

# Racks & Carriers

## Chainsaw Holder

Simply loosen the wing nut of this chainsaw holder, slide the chainsaw bar in, tighten & ride away! The holder is equipped with a bar guard for added rider protection & safety. The holder is heavy duty & extremely versatile holding a variety of chainsaws with bars up to 24" long.

- Universal bolt-on bracket fits most ATVs
- Attaches to both steel & composite racks
- Powder-coated in Jet Black
- Made in the USA
- Hardware & instructions included

PART #	DESCRIPTION
4501	Steel Chainsaw Holder

PART #	DESCRIPTION
2952	GPS / Light Beacon Pole

## Beacon Extension Pole

Raise safety lights or GPS globes off your ATV or UTV roughly 30 inches from your rack or bed. The 6" diameter variable mounting plate & grade 5 hardware allows for easy install, position adjustments & secures tightly into place once ready. Pole itself is manufactured from 1" tubing that attaches the top & bottom plate. Light not included.

 **MADE IN  
USA**

# Receivers

Made in Minnesota, USA, with American steel these receivers are tough enough to tow through the roughest environments. With a Jet Black powder-coat finish, it will even hold up against corrosion & rust. Hardware & instructions included.

PART #	NAME	DESCRIPTION
4530	3-Way Compact Hitch	$\frac{3}{8}$ " steel laser cut with holes for a ball or pull pin & tow loops
4841	Bolt-On 2 Way Riser Hitch	$\frac{5}{16}$ " steel with 3" offset & a $\frac{1}{2}$ " thick tow loop
4533	3-Way 1 $\frac{1}{4}$ " Receiver	Bolts onto the frame with options for ball, clevis pin & tow loop, this reversible receiver puts your 1 $\frac{1}{4}$ " receiver to work with heavy gauge steel
4877	Bolt-On Hitch 1 $\frac{1}{4}$ " Receiver Converter	Easily attach to frame for converting to receiver hitch, 7-gauge welded mount plate & 12-gauge reinforced receiver tube
4890	Standard 1 $\frac{1}{4}$ " Receiver	$\frac{3}{8}$ " steel & fits a 1" ball bolt, includes receiver, $\frac{1}{2}$ " hitch pin & hair pin
4676	2-Way 1 $\frac{1}{4}$ " Receiver	$\frac{1}{2}$ " pin hole & a $\frac{3}{4}$ " ball bolt hole for using a ball or clevis pin without changing hitches, $\frac{1}{4}$ " steel with a 1" offset
4734	2" Offset 2-Way 1 $\frac{1}{4}$ " Receiver	$\frac{1}{2}$ " pin hole & a $\frac{3}{4}$ " ball bolt hole for using a ball or clevis pin without changing hitches, $\frac{1}{4}$ " steel with a 2" offset
4531	1 $\frac{1}{4}$ " to 2" Adapter Receiver	Change your 1 $\frac{1}{4}$ " receiver to a 2" without sacrificing strength, welded heavy duty steel with $\frac{1}{2}$ " hitch pin included
4532	3-Way 2" Receiver	Tow or pull as this reversible receiver has holes for a ball, pin & tow loop, includes a $\frac{5}{8}$ " hitch pin, reversible for varying heights
4895	4" Offset 2" Receiver	Heavy duty $\frac{3}{8}$ " steel 2" receiver with a 4" offset, includes hitch pin & hair pin

Note: All hitches & receivers include mounting hardware.

## Hand Shifters

Whether you're wearing big boots, partially submerged or unable to operate a foot shifter, this clamp-around design will turn your foot shifter into a hand shifter in seconds. Easy mounting, sturdy construction, attaches to virtually any foot shifting machine & gives riding enthusiasts the ultimate gear-shifting experience no matter the situation!

- No drill assembly & easy bolt-on install
- 3/4" round American steel tubing
- Made in Minnesota, USA

PART #	DESCRIPTION
4632	Universal 15" Hand Shifter
4620	Universal 22" Hand Shifter
4698	20" Hand Shifter for Suzuki Models
4054	20" Hand Shifter for Yamaha YFM Big Bear 87-09

## License Plate Holder

Stay legal with this American made, steel license plate holder. With the included hardware, it attaches in seconds to any 1" or narrower tubing on the front or back of your ATV or UTV.

- Fits most 2 or 4 hole license plates
- 7 3/4" x 4" outside diameters, 11-gauge steel
- Includes 2 rubber coated steel clamps

PART #	DESCRIPTION
4541	Black License Plate Holder
4541W	White License Plate Holder

# Towing

## HitchDoc Utility Sled - #8100

Whether you're heading out to camp, ice fish, hunt or split wood, this steel framed utility sled will keep up! Effortlessly unfold, set up, load down & tow behind your snowmobile in deep snow or ATV/UTV over ice.

Easy, bolt together assembly allows this product to get right to work & it folds up for easy storage during the off season. Bring efficiency to your voyage with the HitchDoc utility sled.

- 45" x 24" deck space
- 9" x 24" perforated standing platform
- 33 1/2" tall & 93" long when fully set up
- 8 1/2" tall & 56" long when collapsed
- 3/4" square steel tube frame
- 14 gauge formed steel skis
- Rubber cushioned hitch with snow shield
- Some assembly required
- All hardware included

PART #	DESCRIPTION
8105	Replacement Ski
8130	Replacement Tongue & Hitch
8131	Replacement Hitch
8100	Folding Utility Sled

## Tie Down Bars & Cranks

Designed to work with more trailers. Being 45.6" wide, the tie down bars secure skis directly to the trailer. Powder-coated with a black finish then paired with rubber end caps to withstand the elements & not scratch machine skis. 1/2" center, crank hole pairs perfectly with either a 3 1/2" or 6 1/2" tie down crank.

- Center hole designed for 1/2" diameter cranks
- Cranks are 1/2" diameter & zinc coated
- Note: Bars & cranks are sold separately

PART #	DESCRIPTION
3327	1 1/4" square tie-down bar
3328	1" x 2" rectangle tie-down bar
3330	6 1/2" tie-down crank
3331	3 1/2" tie-down crank

# Motorcycle Hitches

Designed for **your bike**. Manufactured for **your safety**. Owner, Brad Mohns, designed & fabricated the first HitchDoc Motorcycle Hitch in preparation for the Sturgis Motorcycle Rally's 50th Anniversary in 1990. From the first hitch to the one you can purchase today, the philosophy behind using solid, American steel & matching the aesthetics of the bike has not changed.

- Standard (visible ball & mount plate) & vertical receiver style hitch mounts available
- Hitch mounts solidly to the frame without any drilling
- Innovative clatter-free receiver feature improves touring experience by not rattling with the vibrations of the road/bike
- Inspected against the highest quality standards for the safest addition to your riding experience
- Minnesota made with American steel & decades of manufacturing experience
- Visible portion of hitches are triple plated show chrome while some hidden portions are a baked-on, powder coat finish
- Designed & manufactured for safety & eye-appeal
- Hitches fit models of motorcycles across 10 brands & years 1980 to present
- Hole for ball is 3/4" & the receiver shaft is 1-1/8" with a 1-7/8" chrome ball

## MANUFACTURER WARNING

Do not exceed the motorcycle manufacturer's Gross Vehicle weight limit when loading and pulling ANY trailer with ANY motorcycle. ALL HitchDoc motorcycle trailer hitches have a MAXIMUM tongue weight load of 40 pounds. Tongue weight must NEVER EXCEED 10% of the GROSS TRAILER weight including ALL CONTENTS AND CARGO.

Motorcycle performance is always affected by adding a trailer to a motorcycle. Always ride in a conservative and safety conscience manner when towing a trailer with a motorcycle.

- Allow extra distance for acceleration and braking when pulling a trailer.
- Always decrease from normal cornering speeds when pulling a trailer with a motorcycle.
- When riding in groups with a motorcycle trailer, always ride at the

rear of the group to minimize group accident exposure.

- Never exceed motorcycle manufacturer, trailer manufacturer, or hitch manufacturer's limits for gross weight or tongue weight.
- Never exceed posted speed limits for vehicles when pulling trailers which can be different than non-towing vehicles.
- Many states exclude, by law, vehicles towing trailers from the left hand, or so-called fast lanes.
- Always use approved safety chains, and have them securely attached. Cross the safety chains under the tongue of the trailer so that the tongue will not drop to the road if it becomes separated from the hitch. Always leave just enough slack so that you can turn with your rig. And, never allow safety chains to drag on the ground.
- Trailer tire pressure should be inflated to maximum allowable pressure, unless otherwise recommended by the trailer manufacturer. Rear motorcycle tire pressure should be inflated to maximum allowable pressure (refer to tire side wall marking) and checked periodically.
- Towing a trailer requires a certain amount of experience. After loading the trailer, weigh the trailer and then the tongue separately, to see if the weights are proper.
- If trailer sways or bounces while towing, SLOW DOWN BY REDUCING SPEED GRADUALLY and STOP TOWING immediately. Unless cause can be determined, i.e. shifted load, low tire pressure, etc., which can be corrected, do not resume towing.

\*Our hitches are designed to fit on stock bikes.

\*Our hitches are not recommended for use with one wheeled trailers.

# Snowmobile Tools

## Snowmobile Shop Dolly - #8010

Originally designed in 1966 & redesigned in recent years, this patented collapsible Shop Dolly will make snowmobile moving a breeze! The U-shaped handle design & adjustable strap will hook to your machine & easily move it inside the shop or out on the trailer with the large, steel rimmed rubber tires.

This Shop Dolly can be stood upright on its 'feet' or collapsed down for simple storage in the off-season.

- Built from steel tubing
- Reinforced with 2 pairs of 1" wide, 7-gauge steel braces
- Pneumatic tires with steel rims
- Accommodates sleds ranging from 38" to 51" wide
- Adjustable legs, arms & strap
- Some assembly required

PART #	DESCRIPTION
8010-1	Shop Dolly pad, rod & pin replacement part
8015	Shop Dolly wheel replacement

PART #	DESCRIPTION
8018	Shop Dolly lift strap with hook replacement

## Snowmobile Work Stand - #8030

The work stand is the ultimate addition to a snowmobile enthusiast's shop or garage. With enough lift to raise any sled, yet collapses down for off-season storage. This work stand is perfect for replacing the track, changing carbides, adjusting suspension, sled storage & more!

The Snowmobile Work Stand was designed in the snowy Midwest with strong, rectangular tubing, manufactured in the USA & finished with a corrosion resistant, powder-coat finish.

- Lifts to roughly 31" & collapses to 5 1/2"
- Legs & top composed of 1 1/2"x1" steel tubing
- Base composed of 2"x1" steel tubing
- Long handled crank jack makes for easy lifting
- 4" diameter circular lifting pads
- Grade 5 hardware included
- Some assembly required
- Optional wheel kit available (Part #8035 shown in photo)

PART #	DESCRIPTION
8035	Work Stand non-locking, swivel wheel kit
8032	Work Stand rubber lift pad replacements

PART #	DESCRIPTION
8028	Work Stand replacement jack
8031	Work Stand replacement crank jack handle

# Snowmobile Tools

## Stands & Slides

Make moving & storing your snowmobile a breeze with any sled slides or steel track risers. Easily lift your track for maintenance or storage with three styles of adjustable track stands. Secure the stand at the proper height for an easy, one-person lift. Warm Up Stand (8072) & Lever Lift Stand (8074) provide a full shield from any track debris when servicing.

Sled slides come in steel or colored, formed plastic; pick from black, blue or red. Slides come as a set of three with two designed for the skis & one for underneath the track. Move machines across smooth surfaces alone & for precise placement.

PART #	DESCRIPTION
8058	Blue Plastic Sled Slides
8056	Black Plastic Sled Slides
8060	Red Plastic Sled Slides
8070	Steel Sled Slides
8074	Lever Lift Stand
8072	Warm Up Stand
8040	EZ Trac Stand

#8070 STEEL SLED SLIDES

#8074 LEVER LIFT STAND

## Clutch Pullers

Clutch pullers are made from high carbon, hardened steel & machined to precise tolerances, providing years of durable shop use for many makes & models of snowmobiles. Simply prep the clutch, twist the puller into place & use a matching socket for easy removal. Heavy-duty steel with a black oxidized finish.

Clutch Button Retainer Clips come as a set of three & an integral part of removing the clutch on Ski-Doo T.R.A. machines. Steel & zinc coated clips hold buttons in place during assembly & disassembly.

PART #	DESCRIPTION

# DirtMaster

Tow around the field, through the woods, or a suburban backyard with an ATV, car, lawn tractor, truck or UTV. The DirtMaster by Kwik-Way is the ultimate towable backhoe! With unlimited mobility, minimal ground disturbance during operation & easy to master joysticks, any operator can hop on & get right to work. The DirtMaster comes standard with two pairs of stabilizers & a best-in-class Honda motor. It's sure to make short work of your next project!

- Tow at speeds up to 45 mph depending on terrain
- 2" solid ball & lock pins ensure safe transportation
- Front hydraulic stabilizer can be positioned together or independently
- Rear manual stabilizers can be secured with a pin during use or transport

**CONQUER ANY TERRAIN** with the ultimate **TOWABLE BACKHOE!**

**DIRTMASTER**

PART #	DESCRIPTION
KW55-32710	DirtMaster with 12" bucket
KW53-00121	9" Bucket
KW53-00321	16" Bucket
KW53-01511	14" Ripper Tooth
KW53-01611	Fenders & Light Kit

# Other Leading Products

## Finish Graders

Minimize material & labor costs while prepping your jobsite with the automated Dual Dozer. Attach to tractors or skid loaders with various technology options.

## Spreaders

Scoop sand, salt, seed or fertilizer with the hardened cutting edge of the hydraulically powered Sandpiper Spreader. Spread widths of 30 inches up to 30 feet.

## Kwik-Way Blades

### V-Blade

Move snow or light material with the Kwik-Way V-Blade. Position each hydraulic panel for V forward, backwards or straight.

### 6-Way Blade

Have ultimate control over the heavy duty, hydraulically powered Kwik-Way 6-Way Blade. Tackle heavy dirt work, rock or snow!

### Angle Blade

Ready to handle snow or light material work, the Kwik-Way Angle Blade easily attaches to skid steers & mini skids.

## Fuel Transportation

### Fuel Pod

Transport fuel in your truck bed or on a seed cart to finish out a job or field! Dual skid pockets allow for easy mobility.

### Fuel Trailers

Transport fuel to the jobsite or field with the road-ready, DOT compliant HitchDoc Fuel Carts. Multiple options available to best fit each application.

## Contract Manufacturing

With 2 facilities, 150 employees & truckloads of US steel, HitchDoc is a high-caliber & full-service manufacturing partner. Sheet, tube & plate processing, welding, machining, forming, powder-coat paint, stocking, shipping & complete assemblies are only a few of the exceptional capabilities offered. No project is too large or small for this family-owned & operated business.

## Seed Carts

With over 30 models available of bulk or box seed carts with auger or conveyor options, Travis Seed Carts are overbuilt to outlast the competition.

## Ejector Buckets

The patent-pending Push-Off Bucket is a proven workhorse for moving dense/sticky materials. Forget shaking & slamming your bucket while adding height & reach to your dump!

## SnowBlowers

### Tractor

Chew up & throw snow over the tree tops with single, double or triple auger models in the toughest conditions year after year with the PTO HitchDoc SnowBlower.

### Skid Steer

Full hydraulic controls make snow blowing a breeze! Easily attaches to skid steers & made from US Prime steel.

### Wheel Loader

100% hydraulic snow blower seamlessly controlled from the cab of the pay loader. No external engines, gearboxes or shear pins!

# Order Guides

## Original Eagle Plow System

With years of 'in-the-field' engineering, the Original Eagle Mid-Mount Plow System is ready to plow through snow, no matter how much stands in your way. The mount & push tubes mount to the belly of your ATV. Use any Eagle Plow Blade with this system (except the 2960 Series V-Plow).

ORDER GUIDE

- Review the Model Specific Mount Guide (Pages 13-19) ..... Part # \_\_\_\_\_  
\*\*Note: Universal Push Tube Mount is included with Model Specific Mounts
