UTV HORN KIT

Off-road enthusiast can take comfort in improved safety by adding the FIAMM UTV horn kit to their UTV. The completely universal system produces a powerful high sound of 125 decibels which ensures that you are heard wherever you may ride. A splash guard on the horn provides excellent protection against water to ensure years of dependability. The universal kit comes with everything needed for an easy installation. The kit includes a low tone horn, relay, inline fuse, horn button, sac assembly (female and male connectors), and 10" of wire.
