F2 CARBON HELMETS

The F2 Carbon Helmet has established itself as a top choice in race circuits around the world. The helmet earned a reputation as one of the most comfortable helmets on the market. The new F2 has taken this to the next level with its one-piece tri-composite carbon fiber shell and mouth guard, MIPS® (Multi-Directional Impact Protection System), and best in class airflow. The new F2 excels at impact technology without compromising the comfortable fit—with an all-new bold look.

Carbon fiber and Kevlar® composite shell

Seamless one piece mouth guard and chin bar construction

Multiple intake ports and exhaust vents connected to an accurately integrated EPS airflow system

2 Stage EPS creates progressive energy management

MIPS® Multi-Directional Impact Protection System

FLY Racing helmets meet the toughest safety standards in the market

F2 CARBON MIPS® HELMET

XS - 2X

STANDARD

- ECE/DOT approved

CONSTRUCTION

- MIPS® Brain Protection System: helmet-integrated, low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts
- Carbon Matrix composite shell
- Dual-density EPS (Expanded Polystyrene) liner
- Custom rubber trim with integrated nose guard
- Lightweight machined aluminum visor screws
- Stainless steel rivets and D-rings
- Two shells and Three EPS sizes for a precise fit

COMFORT / LINER

- Removable and washable COOLMAX® comfort liner and cheek pads

VENTILATION

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents
- Quad-vent above eye port draws air from goggle to reduce fogging

INCLUDED ACCESSORIES

- Soft fleece helmet bag

OPTIONAL ACCESSORIES

- Cold weather breath guard and ventilation plug kits
- | | |

A close-up photograph of a racing helmet. The helmet is primarily blue with a large yellow section on the side. The word "RACING" is printed in bold, dark blue, sans-serif capital letters across the yellow section. The helmet's surface is highly reflective, showing highlights and shadows from the lighting. The top of the helmet has a dark blue visor area.

RACING

ELITE HELMETS

This helmet has it all: FLY's originally designed Elite helmet maximizes style and comfort. Elite offers a multi-port ventilation system, minimized weight and spot on comfort and fit. Built to meet and exceed DOT/ ECE 22.05 safety standards.

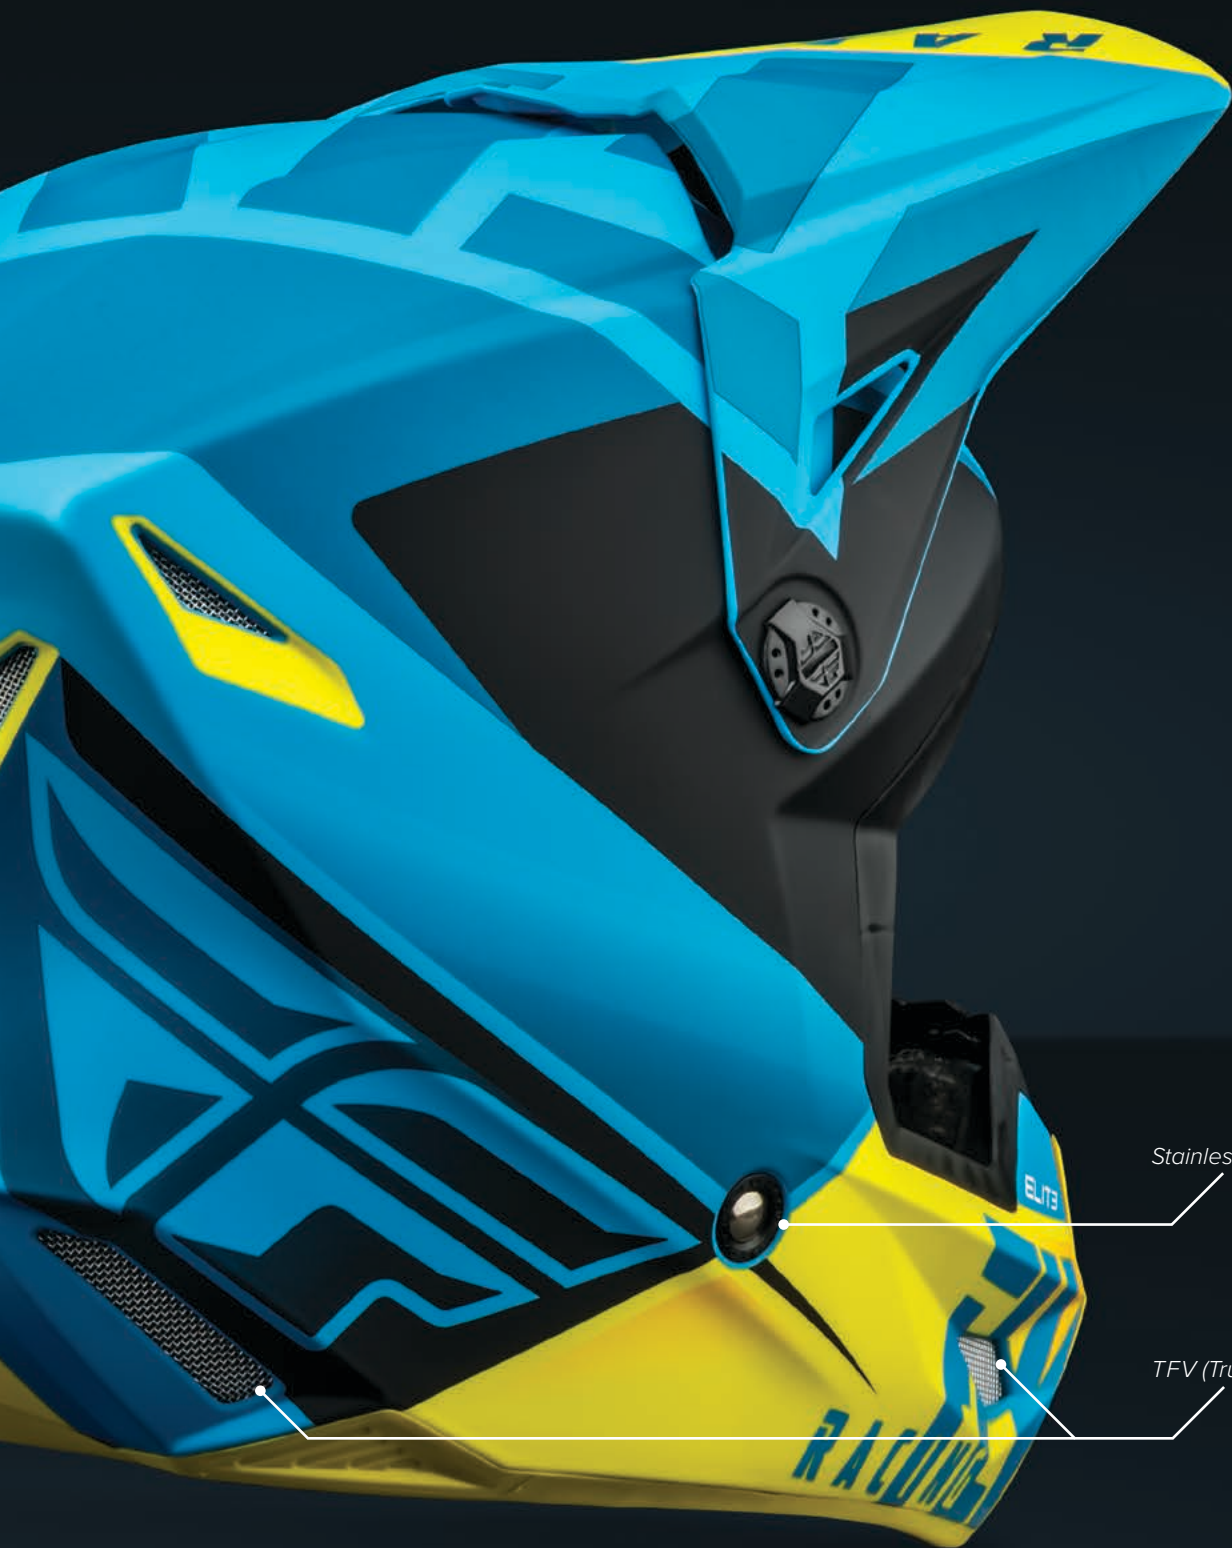

Multiple intake ports and exhaust vents connected to an accurately integrated EPS airflow system.

Quick release, washable comfort liner and cheek pads

Integrated nose guard

High-flow mouthpiece

TREKKER HELMET

Nova

Solid

STANDARD

- ECE/DOT approved

CONSTRUCTION

- Durable and lightweight polymer shell
- Dual-density EPS (Expanded Polystyrene) liner
- Two shell sizes

VISION

- Optically superior clear face shield with a durable hard coating for scratch resistance
- 100% UVA/B protection up to 400 nanometers

SHIELD LOCK

- Visor and shield integration places the shield out of the line-of-sight in the raised position
- Shield is designed to accommodate goggles and goggle straps when in the closed position
- Easy shield changes: quick, secure and tool-less removal and installation

COMFORT / LINER

- Removable and washable interior Qwick-Dry® comfort liner and cheeks pads
- Hydrophilic liner absorbs sweat and is perforated to provide plenty of ventilation

VENTILATION

- All FLY helmets have TFV (True Functional Ventilation). When in motion air is forced through multiple air intake vents, then passed through aligned vent channels in the EPS and exits out multiple rear exhaust vents

INCLUDED ACCESSORIES

- Highly visible 3M reflective stickers for increased visibility
- Side-plate covers included for street helmet configuration with the visor removed
- Soft fleece helmet bag

WHAT IS **MIPS**?

In a helmet with MIPS Brain Protection System (BPS) the shell and the liner are separated by a Low Friction Layer. When a helmet with MIPS Brain Protection System is subjected to an angled impact, the low friction layer allows the helmet to slide relative to the head. The MIPS BPS is designed to add protection in helmets against the rotational motion. The rotational motion is a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration) that both affects the brain and increases the risk for minor and severe brain injuries. MIPS BPS has been scientifically proven to reduce rotational motion when implemented in a helmet by absorbing and redirecting rotational energies and forces transferred to the brain.

THE GREAT **MISCONCEPTION**

Accident statistics show that many injuries occur due to angled impact to the head. However, in standard helmet tests the helmet is dropped vertically onto a flat surface. The results are helpful for measuring precise vertical impacts, but inferior for measuring the increases protection against angled impacts.

LOW ■■■■■ STRAIN LEVEL ■■■■■ HIGH

WHAT IS **ROTATIONAL MOTION**?

Rotational motion is a combination of rotational energy (angular velocity) and rotational forces (from angular acceleration). This rotational motion results in shearing and/or stretching of brain tissue which affects the brain and increases the risk for both minor and severe brain injuries.

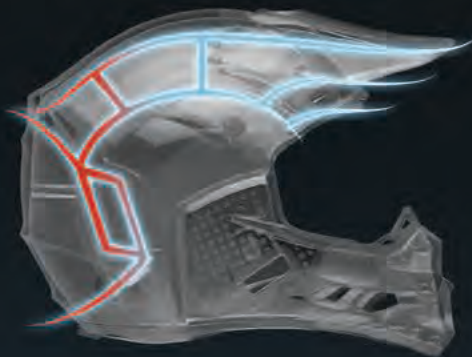

SHELL CONSTRUCTION

FLY Racing helmets are constructed and hand crafted using only the highest quality materials. These materials were selected to meet specific performance standards while providing best in class value. We have developed two distinct shells, a Carbon Matrix Composite and a Polymer shell. Our Carbon Matrix Composite helmet shell is constructed using a blend of carbon and Kevlar synthetic fibers. As a result, these two fibers work together to deliver the lightest and most robust composite helmet shell on the market. Our Polymer helmet shell utilizes a very high quality thermoplastic polymer called Acrylonitrile Butadiene Styrene. Every polymer helmet shell is meticulously designed to balance weight and strength to provide the very best features and value within its category.

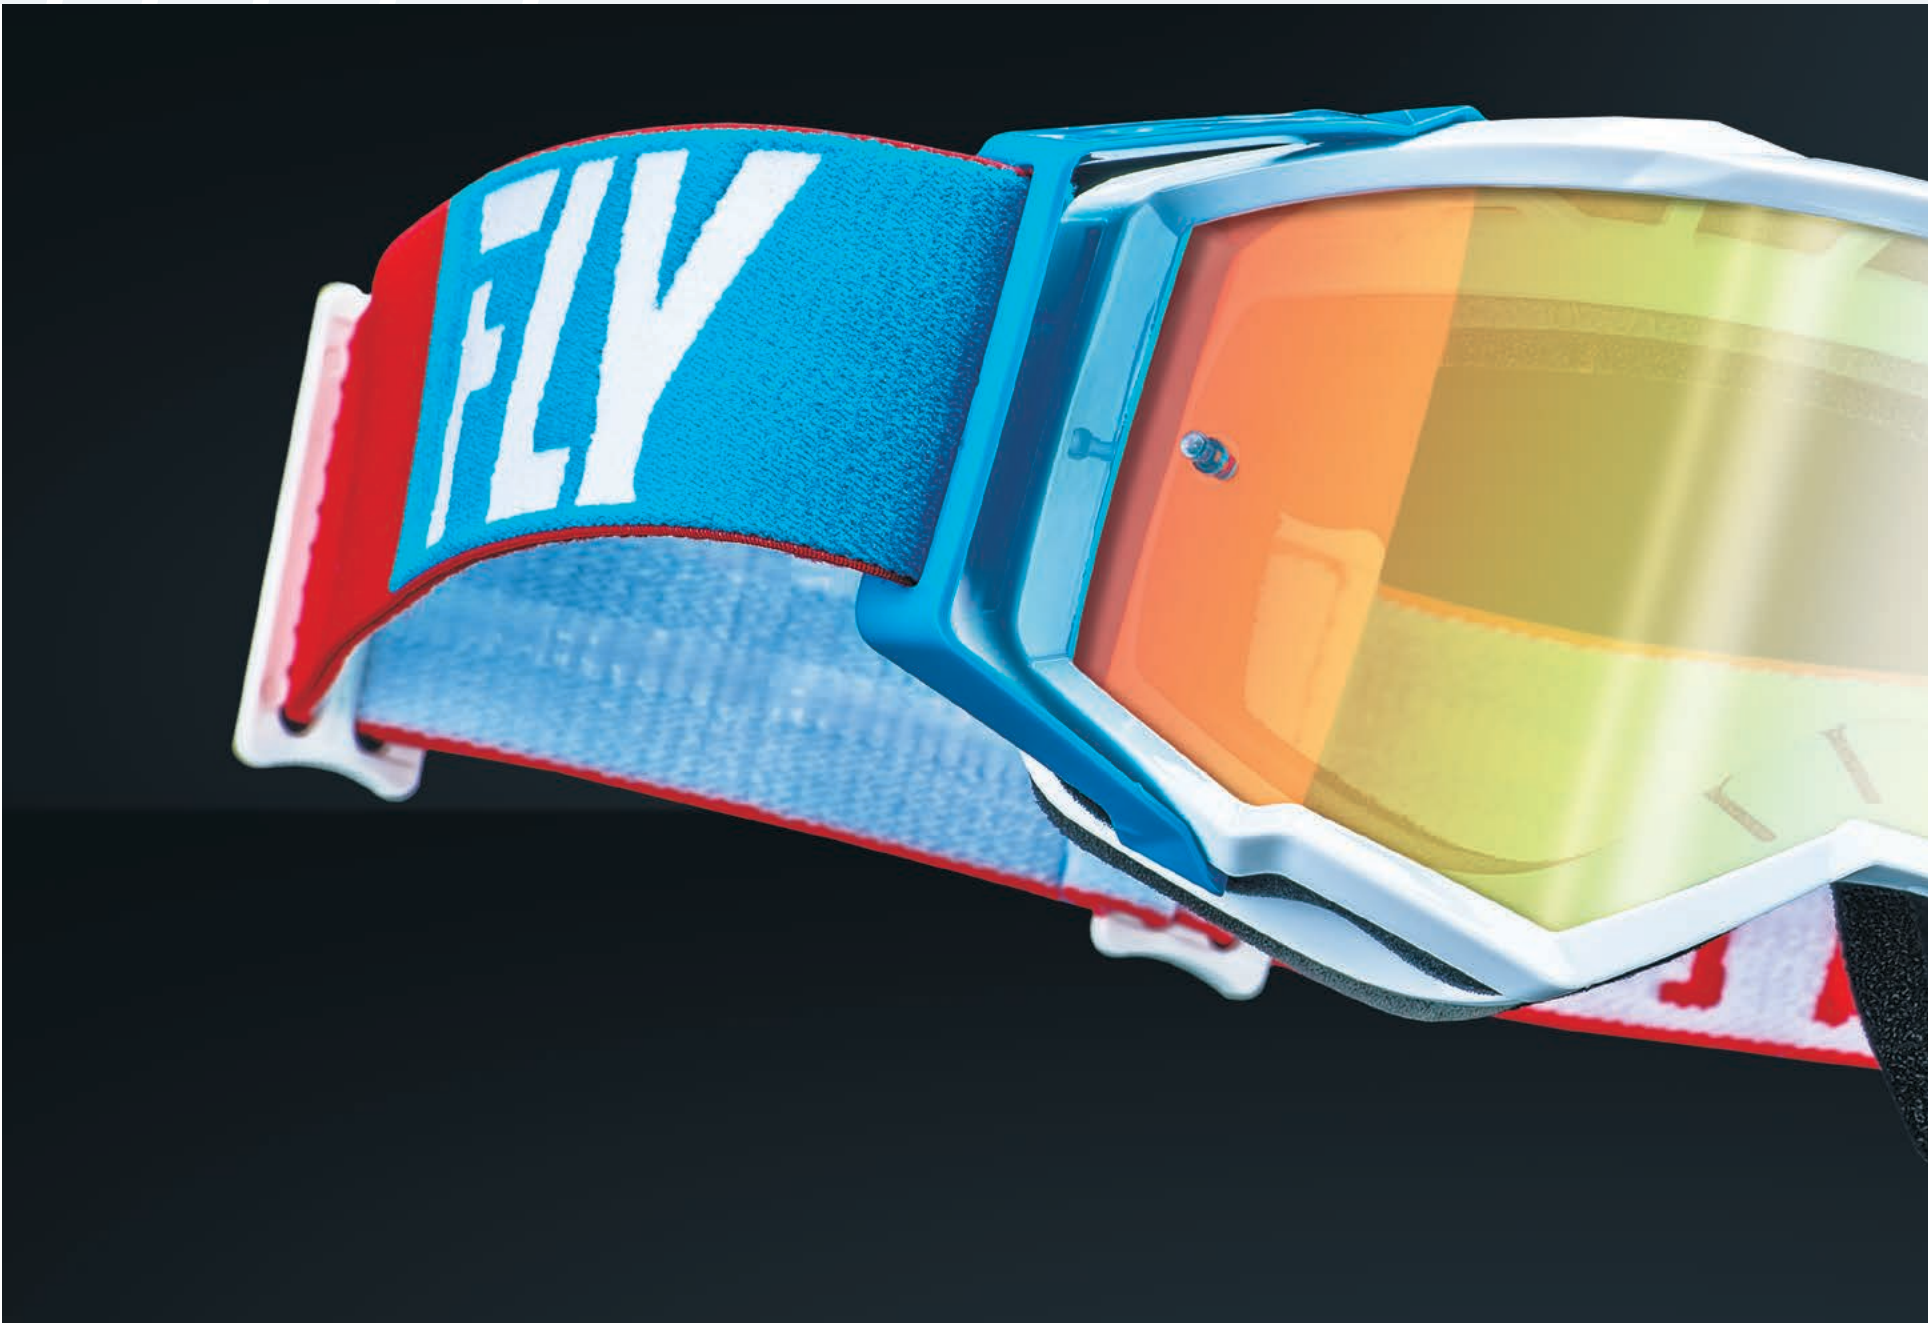

DUAL-DENSITY EPS

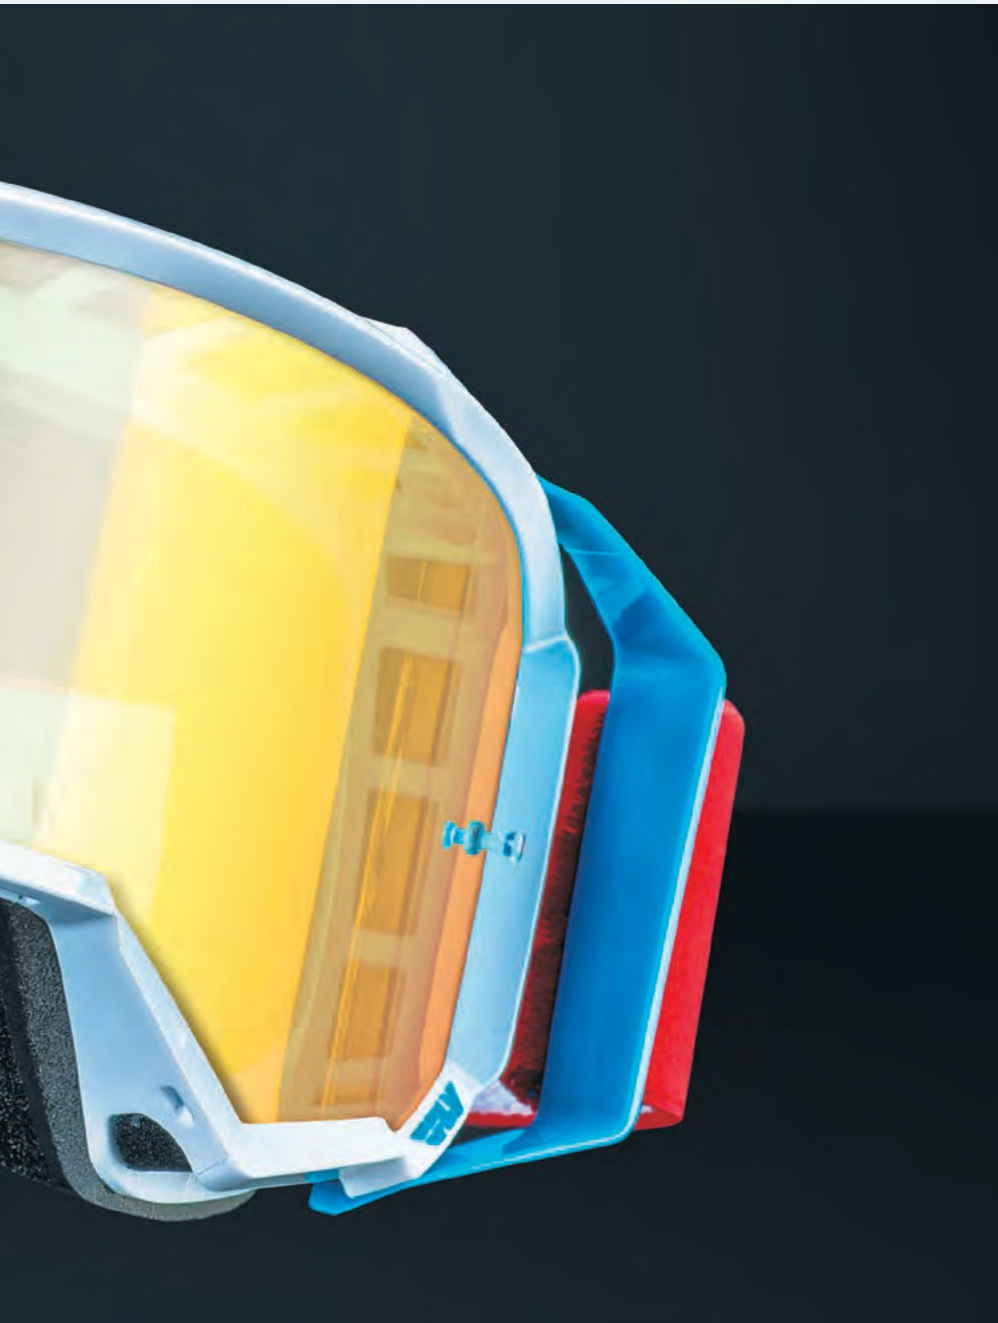

All FLY Racing dirt helmets use a foam liner called Expanded Polystyrene (EPS). This foam manages the energy produced from an impact. While traditional helmets only utilize one layer of EPS, FLY Racing helmets utilize two. The two layers of EPS are formulated in unique densities independent from one another. These different densities allow the helmet system to more progressively manage energy over a wider range of impacts when compared to traditional helmets with only one layer of EPS.

HIGH-FLOW VENTILATION

We designed our ventilation system with performance and comfort in mind. We have pushed our designers to create a High-Flow ventilation system. Vent channels in the EPS connect the intake vents to the exhaust vents, thus creating a complete cooling system. Channeling cool air into the helmet and pushing hot air out. Remove the comfort liner on any FLY Racing helmet to reveal an array of engineered ventilation channels. Our High-Flow ventilation system maximizes airflow to keep you cool and performing at your best.

FLY GOGGLES

Clear vision is a must and FLY racing's line of goggles allow you to read the terrain without distraction. Youth and adult specific frame sizes are made from premium, high-grade materials that are designed to provide a secure fit and wide field of vision.

EVOLUTION DST RACEWEAR

Quality and innovation with a constant goal to improve: this is what defines our designers' mindset each year when they set out to build our Evolution racewear. Race tested for over ten years and constantly upgraded, this year we took it to the next level with a complete redesign. We introduce Evolution DST (Durable Stretch Technology); FLY's most progressive performance racewear to date that combines stretch mobility with durability. Low profile, multi-panel stretch construction designed for maximum performance and a comfortable fit that moves naturally with your body. Take it to the next level with Evolution DST racewear.

EVOLUTION DST JERSEY

S - 2X

PERFORMANCE

- Laser-cut perforations for advanced ventilation
- Full mesh back and integrated mesh in key areas
- Open zero-cuff with Lycra® gusset helps prevent arm pump
- Multi-directional Lycra® neck and shoulder panels

CONSTRUCTION

- Low profile multi-panel construction for maximum performance and a comfortable fit
- Seamless armpit construction prevents underarm rubbing and irritation
- Silicone-printed tail keeps jersey tucked in
- Sublimated long-lasting graphics

FIT

- Pro fit: ergonomic arms with a slightly slim cut

Full mesh back and in key areas

Shorty cuffs

Comfort Lycra® stretch collar

Laser perf ventilation

Ratchet buckle closure / adjustable waist belt

DST fabric (Durable Stretch Technology)

Laser perf ventilation

Leather knees with Kevlar® stitching

EVOLUTION DST PANT

26 - 38

Evolution DST is FLY Racing's most progressive performance pant to date that combines all-way stretch mobility with heavy-duty durability for when flexibility and toughness are of equal importance.

PERFORMANCE

- DST (Durable Stretch Technology) combines stretch mobility with heavy-duty durability
- Laser-cut perforations in key areas for advanced airflow
- Strategically placed stretch-mesh ventilation areas
- Internal pocket located inside the waistband
- Relaxed leg cuffs

CONSTRUCTION

- Exclusive four-way HEX-Stretch fabric construction is flexible and tough
- Leather heat shield panels with DuPont™ Kevlar® stitching
- Seat panel sewn to breathable light mesh reduces pulling
- Soft-Flex protective rubber badging
- Long-lasting sublimated graphics
- Advanced Lycra® liner

FIT

- The Boa® System offers fast, on-the-fly micro adjustability
- Ergonomically pre-shaped knee accommodates most knee braces and guards
- Full-Floating durable 900D seat surrounded by HEX-Stretch material moves naturally with your body
- Exclusive zipper lock system keeps pants closed and secure

DuPont and Kevlar are trademarks or registered trademarks of E.I. du Pont de Nemours and Company.

JOSH GRANT

LITE HYDROGEN RACEWEAR

Lite Hydrogen delivers unparalleled lightweight performance, comfort, and flexibility. We continue to develop and improve the Lite Hydrogen line through constant feedback from our athletes—both amateur and pro. The goal has always been to create the lightest, most breathable racewear with an athletic tailored fit. The new Lite Hydrogen race pant is 4.8 ounces lighter than last year's pant. Each panel has been carefully analyzed to ensure that the rider has maximum flexibility, breathability, and support where needed. Lite Hydrogen: the original lightweight, minimalist racewear.

LITE HYDROGEN JERSEY

S - 2X

PERFORMANCE

- Laser-cut perforations help dissipate heat
- Open zero-cuff with reinforced mesh insert

CONSTRUCTION

- Mesh ventilation panels dissipate unwanted heat
- Multi-panel construction for maximum performance and comfortable fit
- Low profile multi-directional tag-less mesh collar
- Extended tail keeps jersey tucked in
- Long-lasting sublimated graphics

FIT

- Athletic fit: fits close to the body with minimal excess

Lycra® stretch collar

Laser perf ventilation in chest and back

Integrated mesh panels in shoulder and sides

Open zero cuff

Ratchet buckle closure

Stretch panels in knee / inseam / back / upper-seat

Laser Perf ventilation

Mesh ventilation in the back of knee to cuff

Leather knees with Kevlar® stitching

LITE HYDROGEN PANT

28 - 38

PERFORMANCE

- Lightweight minimalist design
- 4.8 oz. lighter than last season's pant
- Multi-directional stretch-rib panels for flexibility
- Mesh panels on back of knee and lower leg
- Low profile stretch leg cuffs with removable elastic band

CONSTRUCTION

- Stretch panel construction for maximum comfort and movement
- Leather heat shield panels with DuPont™ Kevlar® stitching
- Long lasting Sublimated graphics

FIT

- The Boa® System offers fast, on-the-fly micro adjustability
- Ergonomically pre-shaped knee accommodates most knee braces and guards
- Full-Floating seat surrounded by stretch-rib material moves naturally with your body
- Exclusive zipper lock system for a secure fit
- Ratcheting fly closure allows for adjustability

WESTON PEICK

KINETIC MESH RACEWEAR

The superior breathability of our mesh racewear keeps you cool and comfortable during those hot and humid days of summer. Using our standard Kinetic racewear line as a foundation, we add dual-mesh construction to the jersey that allows massive airflow and filters out dirt; while the pant uses a ventilated mesh fabric that flows massive air without sacrificing durability. When the conditions get hot, choose Kinetic Mesh to keep you comfortably cool.

KINETIC MESH JERSEY

S - 2X

PERFORMANCE

- Tag-less comfort-stretch collar
- Relaxed shorty elastic sleeve cuffs

CONSTRUCTION

- Integrated dual-mesh construction allows massive airflow and filters out dirt
- Multi-panel construction for maximum performance and comfortable fit

TAYLER ALLRED

WOMEN'S LITE RACEWEAR

Our women's racewear line has been at the head of the pack for over a decade. We've always created racewear specifically for women, not just men's gear in women's sizes. To continue this tradition for 2019, we created new Lite Women's Racewear. An all-new line of stretch construction racewear designed to provide an anatomically correct fit for the female body and the ultimate comfort and performance.

WOMEN'S LITE JERSEY

S - 2X

PERFORMANCE

- Mesh ventilation panels in key areas help dissipate unwanted heat

JOHNNY CAMPBELL

PATROL XC OFFROAD GEAR

The surrounding mountains and desert in Idaho provide us an ideal place to develop offroad gear. Gear that uses durable materials and able to withstand the varying temperatures and conditions commonly faced during offroad riding. Our Patrol XC line is purpose-built for the trail with input from hardcore trail riders that expect nothing less than gear that enhances their offroad riding experience.

PATROL OFFROAD GEAR

The ability to adapt to varying temperatures and riding conditions as well as custom on-the-ride adjustments is imperative when we design the Patrol line. No matter if it's trail, dual sport or adventure, we design Patrol Offroad Gear for performance, versatility and comfort.

PATROL XC JERSEY

S - 2X

PERFORMANCE

- Low profile multi-directional stretch collar
- Integrated mesh ventilation panels
- Open zero-cuff with stretch gusset
- Reflective material bonded in specific areas

CONSTRUCTION

- Ultra-durable reinforcement sleeve panels provide excellent abrasion-resistance
- Multi-panel construction for maximum performance and comfortable fit
- Seamless armpit panel helps prevent chafing
- Extended tail keeps jersey tucked in
- Long-lasting sublimated detailed graphics

FIT

- Standard Fit: not too tight, not too loose

Reflective bonded material

Zero-seam armpit

Breathable abrasion resistant sleeves

Mesh ventilation panels

2D buckle system

Zippered cargo style pockets

Large zippered vents

Leather inner knee panels

PATROL XC PANT

30-40

PERFORMANCE

- Ventilated comfort mesh liner helps keep you comfortable and cool
- Reflective tape and fluorescent orange accent panels for increased visibility
- Leather heat shield panels located on the inside of each leg
- Six large zippered vents located on the front and back of the upper leg
- Above-the-knee zippers offer additional airflow
- Two padded zippered pockets
- Internal pocket located inside the waistband

CONSTRUCTION

- Ultra-durable multi-panel 900d polyester construction
- Equipped with FLY's 2-D buckle for "set it and forget it" adjustability
- Strategically placed stretch-rib panels

FIT

- Full-floating seat surrounded by stretch-rib material is designed to move with you
- Ergonomically pre-shaped knee accommodates most knee braces and guards
- Exclusive zipper lock system for a secure fit
- Ratcheting fly closure allows for adjustability

PATROL JACKET

S - 3X

PERFORMANCE

- FLY Racing's Patrol jacket can easily be converted into a variety of configurations to provide all day comfort and performance
- Zip-off sleeves
- Rear cargo compartment is great for storing larger items
- Ventilated mesh liner

CONSTRUCTION

- Eight Strategically placed zipper vents offer ventilation, customized via the six intake vents, and two exhaust vents
- Seven pockets include: two upper and two lower front cargos with **hook and loop fastener** secured flaps, two zippered mesh lined storage pockets that double as vents, one large rear cargo
- Neoprene stretch collar is fleece lined with adjustable shock-cord
- Abrasion resistance heavy-duty elbow panels
- Reflective tape and fluorescent orange accent panels
- Zippered main entry with storm flap

FIT

- Expandable zipper stretch-gussets give the jacket a custom and secure fit
- Adjustable **hook and loop fastener** strap cuffs
- Hidden adjustable shock-cord for tightening lower-hem

BLACK 371-680

BLACK OPS CONVERTIBLE JACKET

S - 3X

PERFORMANCE

- Lightweight tech shell construction with windproof, water-resistant, breathable membrane to keep you warm and dry
- Fleece-lined interior for added comfort
- Embroidered and screened reflective logos

CONSTRUCTION

- Zip-off sleeves
- Rear zip allows you to wear the jacket with most neck braces
- Internal rear storage pocket

FIT

- Adjustable **hook and loop fastener** cuffs with TPR logo closure
- Shock cord waist band helps to keep jacket in place

BLACK 354-6060

FLY RAIN JACKET

S - 3X

PERFORMANCE

- Low-profile elastic collar and sleeve cuffs
- Gusseted rear vent across upper back
- Waterproof main zipper
- Vented mesh under arms

CONSTRUCTION

- .15 mm PVC construction
- Elastic waist
- Screen printed logos

CLEAR 354-6110

FLY TOOL PACK

CONSTRUCTION

- YKK® Shockonlok™ main buckle resists water absorption often caused by high humidity. Properties are stable under extreme temperatures such as cold mountain top air and desert heat

FEATURES

- Removable flap reduces weight for lighter ride days and less hassle for mechanics
- Tire tube pocket is big enough to fit a spare tube or other necessities
- Tool compartment with key loop, clear plastic bolt pocket, fold down mesh pocket and elastic straps specifically designed to fit the basic tools needed to fix your bike on the trail
- Water bottle side pocket
- Side tool loops are wide and clutter free

FIT

- Nylon grip strap helps keep the strap from loosening up and keeps it secure to the body
- No-slip back keeps pack in a secure position on rough terrain

BLACK 12-1864

FLY BOOTS

FLY Racing puts the soul of our brand in the sole of our boots. Our Maverik boot's decade-long global success in the market has propelled us towards the next step. Not only did we revamp and improve the Maverik from the ground up, we also created the FR5 Boot from scratch. Sharing many of the same innovative design concepts, the new Maverik and FR5 pack a one-two punch in the FLY Racing boot line-up.

Whether it's trail riding with the family in our all new Maverik or racing your fiercest rival in our new FR5, FLY Racing has the solution. With an all new look and all new performance, we are confident that you will love the look and feel of our new boots.

Lateral / medial support structure

3D injected calf reinforcement plate

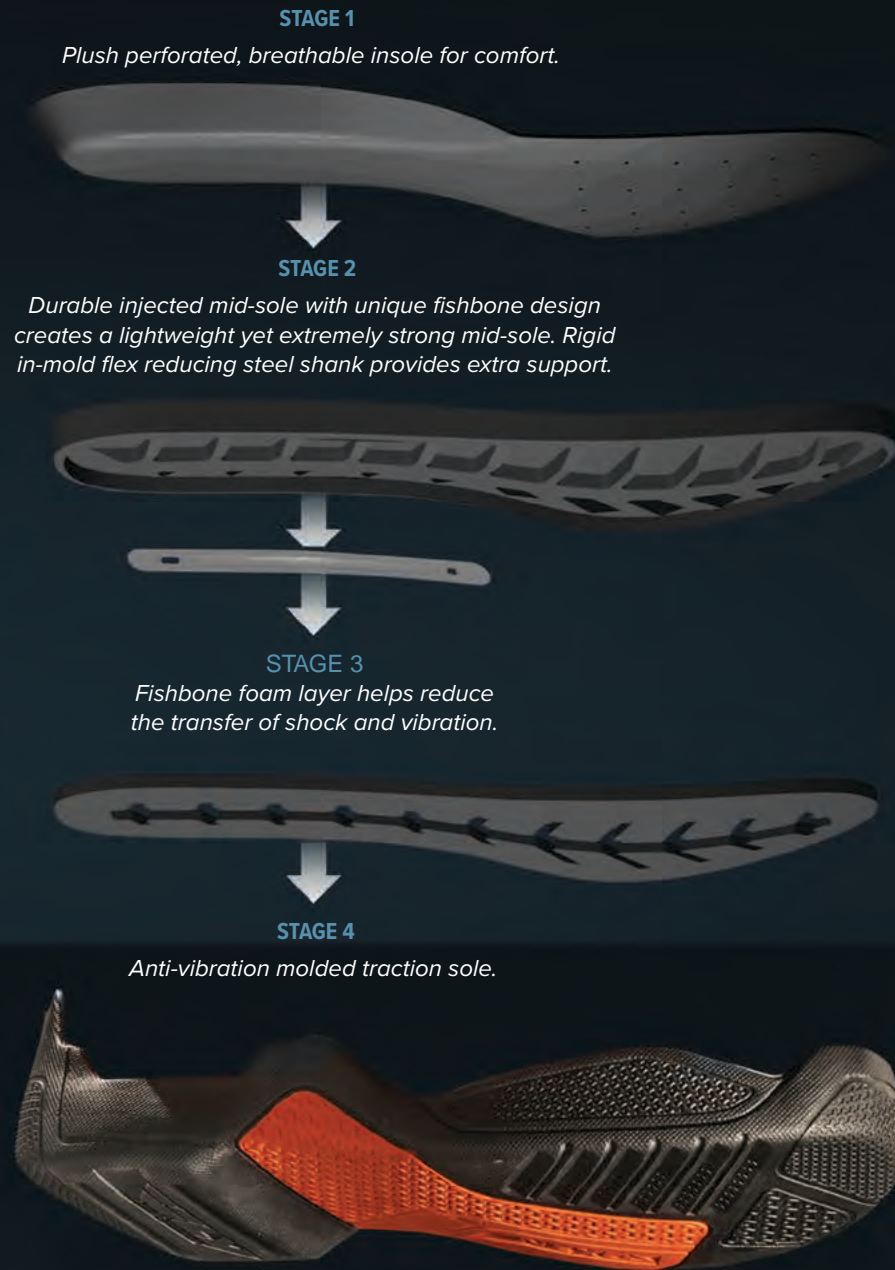

3D injected heel reinforcement plate

Bio-mechanical inner and outer pivots

High impact shin plate with 3D impact structure

Secure 4 buckle closure system

4-stage high-grip sole design

FR5 BOOTS

CONSTRUCTION

- Don't miss a shift with 3D molded plastic shift panel with added grooves and texture that also saves boot from premature wear
- TPU (thermoplastic polyurethane) heel piece connect with lateral/medial TPU pieces for full coverage
- Pre-shaped molded plastic 3D shin adds impact resistance and comfort
- Soft interior foam surrounds the ankle and collar
- Contoured TPU calf plate
- Full textile lining

FEATURES

- CE Approved to EN13634:2015
- Innovative one-piece plastic injected 'fish tail' midsole
- Molded outsole provides a modern stylish look and helps to keep the weight down
- Outsole rubber compound provides good levels of grip while remaining durable
- Padded microfiber gaiter provides a comfortable rim around calf while sealing the opening from debris
- Bio-mechanical pivots on the inside and outside of the ankle for increased stability and support
- Rubber heat shield is long lasting, won't melt, and provides good grip

FIT

- Adjustable aluminum quick-lock buckles provide a solid locked in feel and open design keeps dirt from clogging the function

PROTECTION

FLY Racing guards are designed to help defend riders from the elements found at the track or out on the trail. We continue to develop products that use the most current, cutting-edge materials that provide the best mobility possible. From light roost guards to full CE level certification, our family of products is designed to offer a complete range of rider options.

REVEL ROOST GUARDS

Available in 2 versions: Race (low-profile) or Offroad (added shoulder and arm protection)

CONSTRUCTION

- Revolutionary BioFoam® chassis attachment system eliminates injury-causing plastic rivets and utilizes soft plastics and TPR rubbers without high points that could injure in the event of an impact
- Air channels molded into the BioFoam allow hot air to escape

FEATURES

- Full upper torso plastic roost deflector
- Neck brace compatible design: simply slide underneath the plastics or remove the plastic panels on the chest and back depending upon on neck brace design
- Removable thermoformed soft BioFoam chassis for increased comfort and easy washing
- Multiple vents for maximum airflow

FIT

- Adjustable shoulder straps for a custom comfortable fit
- Easy-to-use waist belt buckles integrated into the chest plastic
- Low-profile design can be worn under jersey

CE REVEL ROOST GUARDS

Available in 2 versions: Race (low-profile) or Offroad (added shoulder and arm protection)

CE CONSTRUCTION

- CE rated protection created using a triple layer, high density memory foam in between the outer plastic and the BioFoam that is in contact with the user. Triple layer construction (as opposed to a single thick layer) allows layers to move relative to one another further improving impact performance

YOUTH RACEWEAR

We take no shortcuts to outfit younger riders; we use the same quality materials, components, craftsmanship, and attention to detail as our adult gear. Whether it's their very first ride, or they're lining up for a moto at the Loretta Lynn's Amateur National, our youth racewear and protective products are designed for the next generation of riders.

Adjustable shoulder straps

Removable arm guards

hook and loop fastener adjustable, fully padded side/flank protection

Easy-to-use waist belt buckles integrated into the chest plastic

Revolutionary chassis attachment is rivet free and offers ventilation

CONSTRUCTION

- CE rated protection chest and back created using a triple layer, high density memory foam in between the outer plastic and the spacer mesh that is in contact with the user. Triple layer construction (as opposed to a single thick layer) allows layers to move relative to one another further improving impact performance
- Revolutionary chassis attachment system eliminates injury-causing plastic rivets and utilizes soft plastics and TPR rubbers without high points that could injure in the event of an impact

FEATURES

- Neck brace compatible design: simply slide underneath the plastics panels
- Easy-to-use waist belt buckles integrated into the chest plastic
- Multiple vents for maximum airflow
- Hand washable
- Chest level 1 – Certified to CE prEN1621-3
- Back level 1 – Certified to CE EN1621-2

FIT

- hook and loop fastener adjustable, fully padded side/flank protection
- Adjustable shoulder straps for a custom comfortable fit
