

LUBE GARD®

11th Edition

OEM ATF AND CONVERSION CHART

HOW TO USE THIS CHART

STEP 1: Determine your vehicles OEM recommended automatic transmission fluid (ATF) found in this chart. *Always confirm OEM fluid type in your owner's manual/or dipstick

STEP 2: Choose Option 1 if servicing the transmission using the OEM required ATF or, adding to the existing fluid to improve shifting, eliminate shudder, lower the temperature, extend the life of the fluid, etc.

Choose Option 2 if you are servicing the transmission and looking for an OEM fluid alternative. Use the recommended base ATF with ONE of the appropriate LUBEGARD Conversion Supplements.

STEP 3: OPTIONAL RECOMMENDATION: For total transmission care, flush out old degraded fluid and unwanted by-products safely with the use of LUBEGARD Automatic Transmission Flush PN/95001.

STEP 4: Add one ounce of ATF for the total capacity of the transmission.

Whole Fluid Option LubeGard now offers whole fluid options for ATF, CVT fluid and DCT fluid applications. *see chart to determine compatibility

Please note that ALL LubeGard conversion products & whole fluids have the benefits of our protectants built right into their formulations!

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. DO NOT OVERFILL. Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

IMPORTANT! OEM ATF Alternative Abbreviations and Symbols

- DM DEXRON®/MERCON®
- DVI DEXRON® VI
- MV MERCON® V
- MLV MERCON® LV
- MULV MERCON® Ultra LV
- LG8 Lifeguard® 8
- DHP Dexron® HP
- GFS Gear Fluid Supplement
- * Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.
- SYN

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Whole fluid option

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. DO NOT OVERFILL. Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

- * Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.
- SYN

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- or
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Lifeguard® 8
Dexron® HP
Gear Fluid Supplement
Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures.
The use of a synthetic base fluid is required.

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- or
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

Gear Fluid Supplement
Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

IMPORTANT! OEM ATF Alternative Abbreviations and Symbols

- DM DEXRON®/MERCON®
- DVI DEXRON® VI
- MV MERCON® V
- MLV MERCON® LV
- MULV MERCON® Ultra LV
- LG8 Lifeguard® 8
- DHP Dexron® HP
- GFS Gear Fluid Supplement
- * Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.
- SYN

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

Gear Fluid Supplement
Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- or
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. DO NOT OVERFILL. Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

IMPORTANT! OEM ATF Alternative Abbreviations and Symbols

- DM DEXRON®/MERCON®
- DVI DEXRON® VI
- MV MERCON® V
- MLV MERCON® LV
- MULV MERCON® Ultra LV
- LG8 Lifeguard® 8
- DHP Dexron® HP
- GFS Gear Fluid Supplement
- * Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.
- SYN Lifeguard® 6

OEM ATF and Conversion Chart

NOP

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- or
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. **DO NOT OVERFILL.** Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

 Gear Fluid Supplement
 Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

Directions: Add 1 oz. LUBEGARD® per quart of ATF. With engine running at operating temperature, shift into park, then check fluid level. Add additional fluid as required. DO NOT OVERFILL. Use this chart only as a reference. Always check the manufacturer owner's manual and dipstick for required volume and fluid type. No part of this chart can be used without the express written permission from ILLI. All trademarks are owned by their respective companies.

Gear Fluid Supplement
Use a synthetic base fluid if the vehicle is subject to severe duty or operates in extreme temperatures. The use of a synthetic base fluid is required.

OEM ATF and Conversion Chart

Option 1 (when using the OEM recommended ATF)

- Lubegard Synthetic ATF Protectant (60902)
- or
- Lubegard Platinum (63010)

Option 2 (as an OEM fluid alternative)

- Lubegard HFM ATF Supplement (61910)
- or
- Lubegard MV ATF Supplement (62005)
- or
- Lubegard Platinum Universal ATF Protectant (63010)

FOR THE RIGHT FLUID AND THE RIGHT SOLUTIONS

Automatic Transmission Fluid Protectant
 Used, endorsed, and recommended by multiple OEM's to protect transmissions and reduce warranty claims
PART # 60902

Automatic Transmission Supplement for Ford Applications (M-V ATF Supplement)
 Converts Dex/Mer ATF to perform like Mercon® V ATF & corrects additive depletion and shifting problems for all Ford fluids *except Type F
PART # 62005

Platinum® High Performance Automatic Transmission Fluid Protectant
 The best product for anti-wear protection! Saves time, space, money and eliminates the guesswork! Use to enhance base ATF to perform like OEM specific ATFs. Can be used in place of any application that calls for 60902, 61910 or 62005
PART # 63010

Highly Friction Modified ATF Supplement
 Converts base ATF to perform like highly friction modified OEM ATFs such as ATF+4, Honda Z-1 & DW-1 and SP III.
PART # 61910

Complete™ CVT Fluid
 Meets/exceeds OEM fluid requirements eliminating the need to stock multiple CVT fluids
PART # 68112

Complete™ Multi-Vehicle Dual Clutch Transmission Fluid
 The service solution for over 99% of all wet clutch applications
PART # 56032

Complete™ Full Synthetic ATF Fluid
 Recommended for all automatic transmissions that require a fully formulated low viscosity ATF with exceptional performance and uncompromising protection
PART # 69032
