

- * Compatible with CF Moto plastic racking only
- 1: Remove the plastic rack from the vehicle.
- 2: Insert the quick releases in the desired holes of the rack by refering to the diagram below

Make sure the bolt is screwed on properly and the round plate is firmly fixed to the rack.

- 3: Re-install the rack on the vehicle
- 4: Place the accessory, like a cargo box for example, by lining up the bolts with the holes of the accessory. Fix the accessory with a washer and a knob as shown here.

Make sure all the knobs are securely fasten before each ride.
